

POOL & SPA LIFTS

The *EZ Pool Lift* is our most economical lift. It is manually operated and requires assistance to both raise and rotate the lift. An ideal lift for the economically minded customer trying to access their pool.

The *Pro Pool Lift* is the first ever lift to be certified ADA compliant and safe for commercial use. The unique, low profile design, small footprint and 450 pound capacity has made this a top seller. Affordable, Compact and certified ADA Compliant!

The *Power EZ Pool Lift* is a variation of the EZ Pool Lift. This lift incorporates battery power to assist with raising and lowering the lift at the touch of a button.

The *Portable Pro Pool Lift* packs all the features of the Pro Pool Lift into a completely portable lift. No need to tear up your deck to install anchors, this lift is completely portable and requires no anchors.

TRAINING PLATFORMS & AQUATIC WHEELCHAIRS

This 36" x 60" Light-weight training aid platform features adjustable height legs from 16" to 21" on a PVC frame with a non-skid deck. This extremely durable platform will last you for many years.

The Pool Access Chair is an ideal solution to swimming pool handicapped access. With super strong PVC construction and an anti-tip design, these non-rusting chairs are designed to operate in pool water environments and showers. Features a swing-out armrest for lateral transfers and a retractable footrest.
