

Portable Vacuum System

This swimming pool portable vacuum filter uses a 1HP, 110 VAC, Sta-Rite Dyna-Max pump to move approximately 5400 gallons of water per hour through a 155 square foot Harmsco stainless steel cartridge filter. Also available as gas powered if an outlet is not available.

Vacuum Heads, Hoses And Poles

VACUUM HEADS

All of our vacuum heads are equipped with a rugged polyethylene housing with enclosed weights. Solid adjustable molded wheels and a snap adapt handle make this vacuum head easy to maneuver around your pool floor.

Automatic Vacuums

JET MAX & JET MAX JR

The JetMAX automatic pool vacuum features a unique onboard pump and filter design making it the only automatic vacuum that works without manual labour, hoses, pool side pumps, hoist, drive motors and other costly wear and tear components.

AQUAMAX

The Aquamax is the standard in commercial pool cleaners. The Aquamax provides full pool coverage, including Walls! Different models Are available for pools Ranging from 5,000 gallons to 450,000 gallons.

VACUUM HOSE

A high quality spiral wound construction, and a swivel cuff on the end makes this hose the perfect choice to pair up with your vacuum head. Comes in 1 1/2" or 2" connection size and in 25ft or 50ft lengths.

TELESCOPIC POLES

When it comes to vacuuming your pool you should always take into account the size of the pool floor. With our telescopic poles we make it easy.

With two sizes always in stock 8ft-16ft and 11ft-22ft there is

THE SPA WAND

This handy little vacuum allows you to clean your spa or any small body of water without any hoses or suction hookups.

LEAF SKIMMER & RAKE

Our Skimmers are made with high strength aluminum frames and a molded ABS frame and Net.

The Leaf Rakes exhibit the same sturdy frame with a deep net to clean those troublesome pools.

Both options come with a Snap-Adapt Handle to easily connect to almost any pole.

WALL BRUSHES

Moulded 6" Algae Brush, metal backed with stainless steel bristles. Use this brush to clean up the algae stains left over the winter.

Our standard wall brushes are a Moulded 18" Brush with a metal backing and nylon bristles. If you require a different brush size give us a call

This moulded back brush with a wooden handle is a must have whenever you are acid washing a pool. If you have been using anything else then you're missing out so get yourself one today!

LEAF TRAPS & VAC PLATES

Ever tried to vacuum the floor of a pool covered with leaves and had to run to the mechanical room to empty the strainer? Well no more!

With our vacuum plates it's as easy as taking off the skimmer lid on deck to clean out the basket. The plate fits into the rim of the skimmer creating enough suction to vacuum the pool and still keep the skimmer basket in!

If we can't find a vacuum plate to fit your skimmer try a leaf trap. This canister connects to your vacuum head and collects all the leaves while you vacuum!
